Contact details: 19-21, Rue Goethe, L-1637 Luxembourg
www.spuerkeess-am.lu - Call (+352) 26 895-1 for more information.
Competent Authority: The Commission de Surveillance du Secteur Financier is responsible for supervising the PRIIPS Manufacturer.

Date of production 19/07/2024

What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the manufacturer may decide to close the sub-fund under certain circumstances.

Objectives

The objective of the sub-fund is to achieve both capital growth and stable income over the medium and long term, while following an asset allocation that provides, on average, over the long term, for a weighting of approximately 75% in bonds mainly denominated in currencies of OECD countries and approximately 25% in equities.

For the purpose of international diversification and risk spreading, the sub-fund may invest its assets directly and/or indirectly through UCIs/UCITS and/or derivatives (e.g. futures):

- mainly in transferable bond securities, securities equivalent to bonds, mainly investment grade type and denominated in currencies of OECD countries;

- for a maximum of 40% of the net assets in equities, the majority of which are large capitalisation, admitted for listing on the world's main stock exchanges, particularly in OECD countries. The sub-fund is actively managed based on analysis of the macroeconomic environment, the monetary policies of the main central banks and various fundamental market aspects such as, for example, the valuation of the companies. The maximum of 40% will only be achieved if these various factors are assessed very positively for the equity markets;

- on an ancillary basis and within the limits provided for by the investment restrictions, as described in Chapter III.1 "INVESTMENT RESTRICTIONS FOR NON-MONETARY SUB-FUNDS" of the prospectus, in warrants on transferable securities, in money market instruments or term deposits.

A minority share of the sub-fund's assets (up to 33% of the net assets) may include securities of issuers domiciled and/or listed in emerging countries, as well as UCIs/UCITS and/or other instruments authorised under point III.1.A)1.1. of the prospectus with an emphasis on "emerging markets".

The sub-fund may, for the purposes of good management and/or hedging, use all of the derivative financial instruments (for example, currency forwards,

futures, options, etc.) and other techniques/instruments set out in point III.1.B of the prospectus - "DERIVATIVE FINANCIAL INSTRUMENTS AND OTHER TECHNIQUES/INSTRUMENTS", in Chapter III of the prospectus - INVESTMENT RESTRICTIONS", within the limits provided for.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

The sub-fund is particularly suitable for a security seeking investor looking to participate in the performance of the EUR bond markets with a low exposure to the stock markets. The sub-fund is suitable both for individual investors looking to invest in the equity market and for sophisticated investors looking to achieve their investment objectives. The sub-fund is particularly suitable for medium and long-term investments, as capital losses may occur as a result of stock market fluctuations.

Other information

Depository: Banque et Caisse d'Epargne de l'Etat, Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

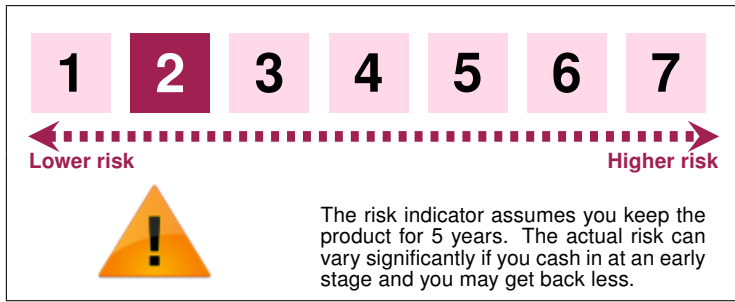

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on www.spuerkeess-am.lu. The prospectus and the periodic reports are prepared for the entire fund and are available in French. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 1998 and this share class in 1998.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Liquidity risk, Counterparty risk, Operational risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 5 years

Example investment: 10,000 EUR

		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6,470 EUR	6,710 EUR
	Average return each year	-35.4 %	-7.7 %
Unfavourable	What you might get back after costs	8,200 EUR	8,700 EUR
	Average return each year	-18.0 %	-2.7 %
Moderate	What you might get back after costs	9,750 EUR	10,070 EUR
	Average return each year	-2.5 %	0.1 %
Favourable	What you might get back after costs	10,560 EUR	11,130 EUR
	Average return each year	5.6 %	2.2 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between December 2021 and May 2024.

Moderate scenario: This type of scenario occurred for an investment between February 2017 and February 2022.

Favourable scenario: This type of scenario occurred for an investment between July 2014 and July 2019.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Spuerkeess Asset Management S.A. is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque et Caisse d'Epargne de l'Etat, Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	474 EUR	1,028 EUR
Annual cost impact (*)	4.7 %	2.0 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.1% before costs and 0.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

		If you exit after 1 year
One-off costs upon entry or exit		
Entry costs	2.5% of the amount you pay in when entering this investment.	250 EUR
Exit costs	1.0% of your investment before it is paid out to you.	98 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.1% of the value of your investment per year. This is an estimate based on actual costs over the last year.	113 EUR
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	13 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

A maximum conversion fee of 0.5% is charged for the conversion of part or all of the shares.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

You should be prepared to stay invested for 5 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?

If you have any complaints about the product, the conduct of the PRIIPS Manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to compliance@spuerkeess-am.lu, by letter to Legal & Compliance Department, 19-21, Rue Goethe, L-1637 Luxembourg, by phone calling the number (+352) 26 895-90.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website www.spuerkeess-am.lu.

Other relevant information
